

ENSIGN 51-FV

viscount *Classical* organs

Φ Physisplus

Top of the new Ensign range, the 51-FV has a comprehensive specification of 51-speaking stops and many features any organist would expect to find on a modern pipe organ. With three manuals and four alternative voicing styles it's possible to register accurately the organ literature of many diverse composers, such as Franck, Howells, and Messiaen. The traditional cabinet with locking fall are a benefit for churches, but the excellent internal amplification also makes the instrument ideal for home or school practice. The 51-FV is available in both Dark and Light simulated wood finishes, and up to 4 channels of external amplification can also be added.
